Welcome to our ANIMO family!

We are thrilled to introduce you to our revolutionary product. Designed specifically for farmers, aims to enhance animal monitoring on large cattle fields. We understand the challenges faced by farmers in maintaining and efficiently managing their farms, particularly in remote areas where accessing the animals can be difficult. To address this issue, we have developed a sustainable blimp that eliminates the need for thermal engines. The ANIMO blimp can be deployed over the farm, equipped with high-resolution cameras and sensors to capture detailed images and data about the animals.

Components

Envelope

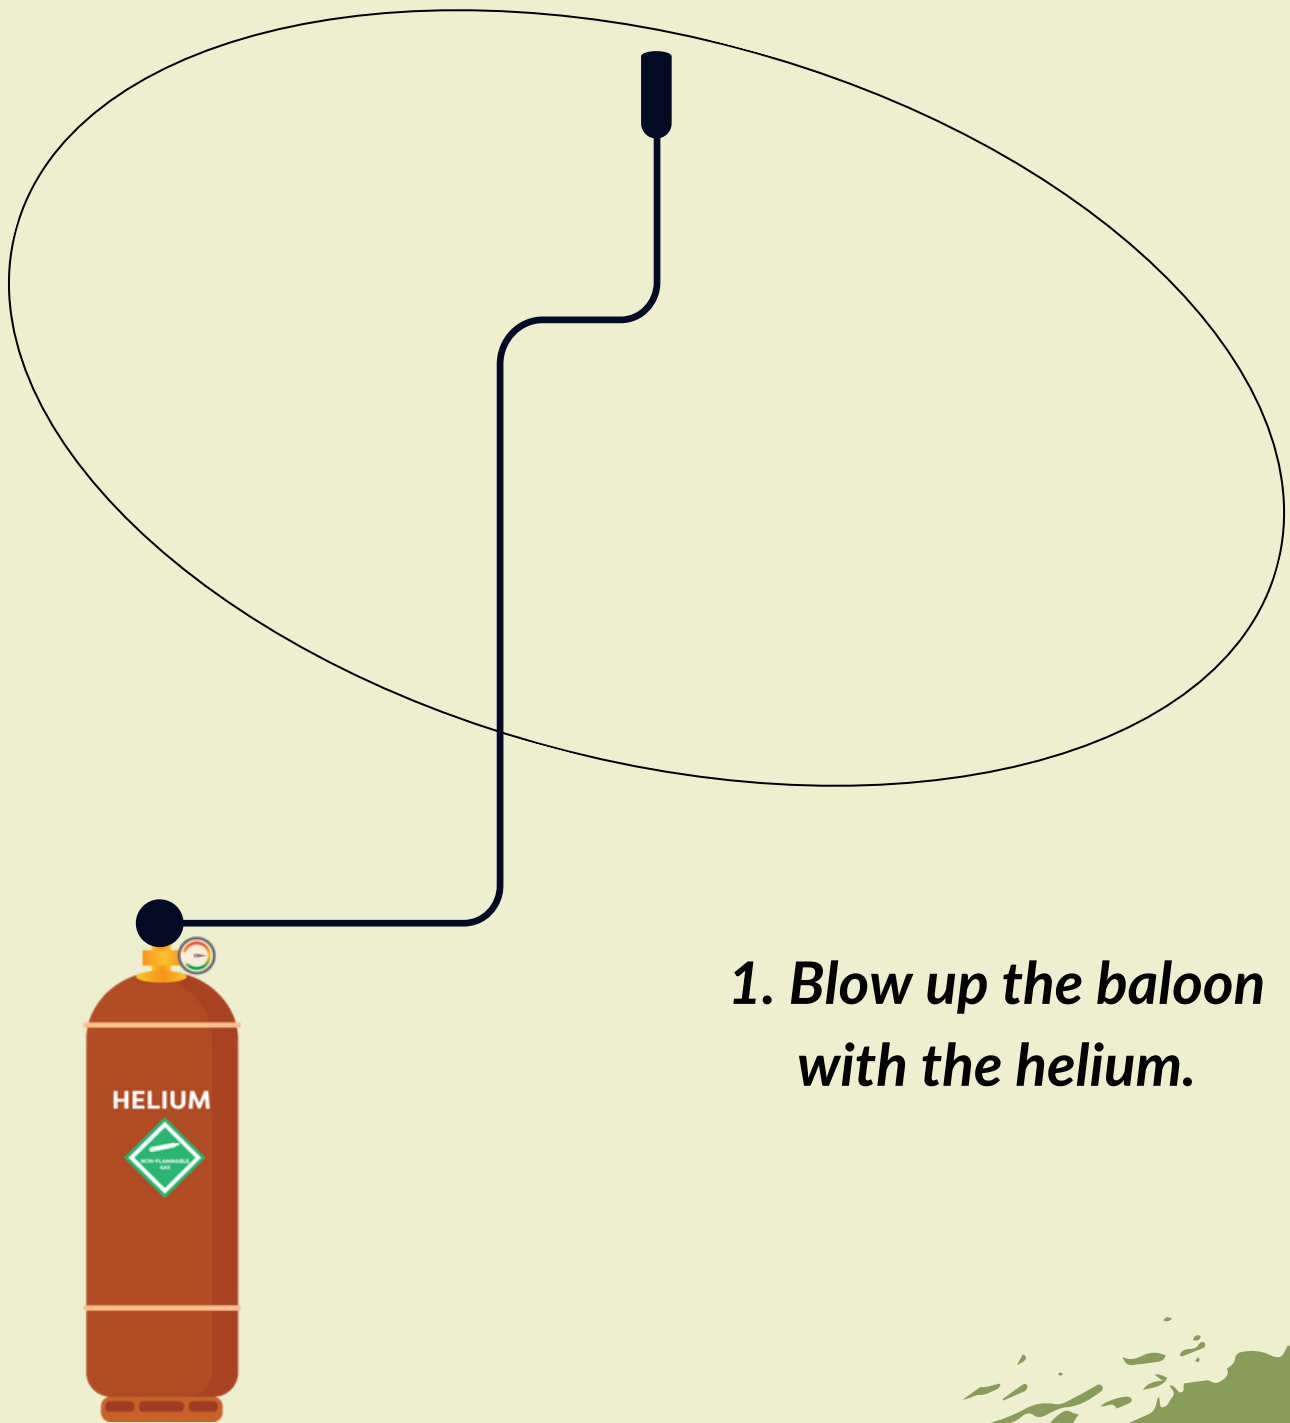

Camera

Proppelers

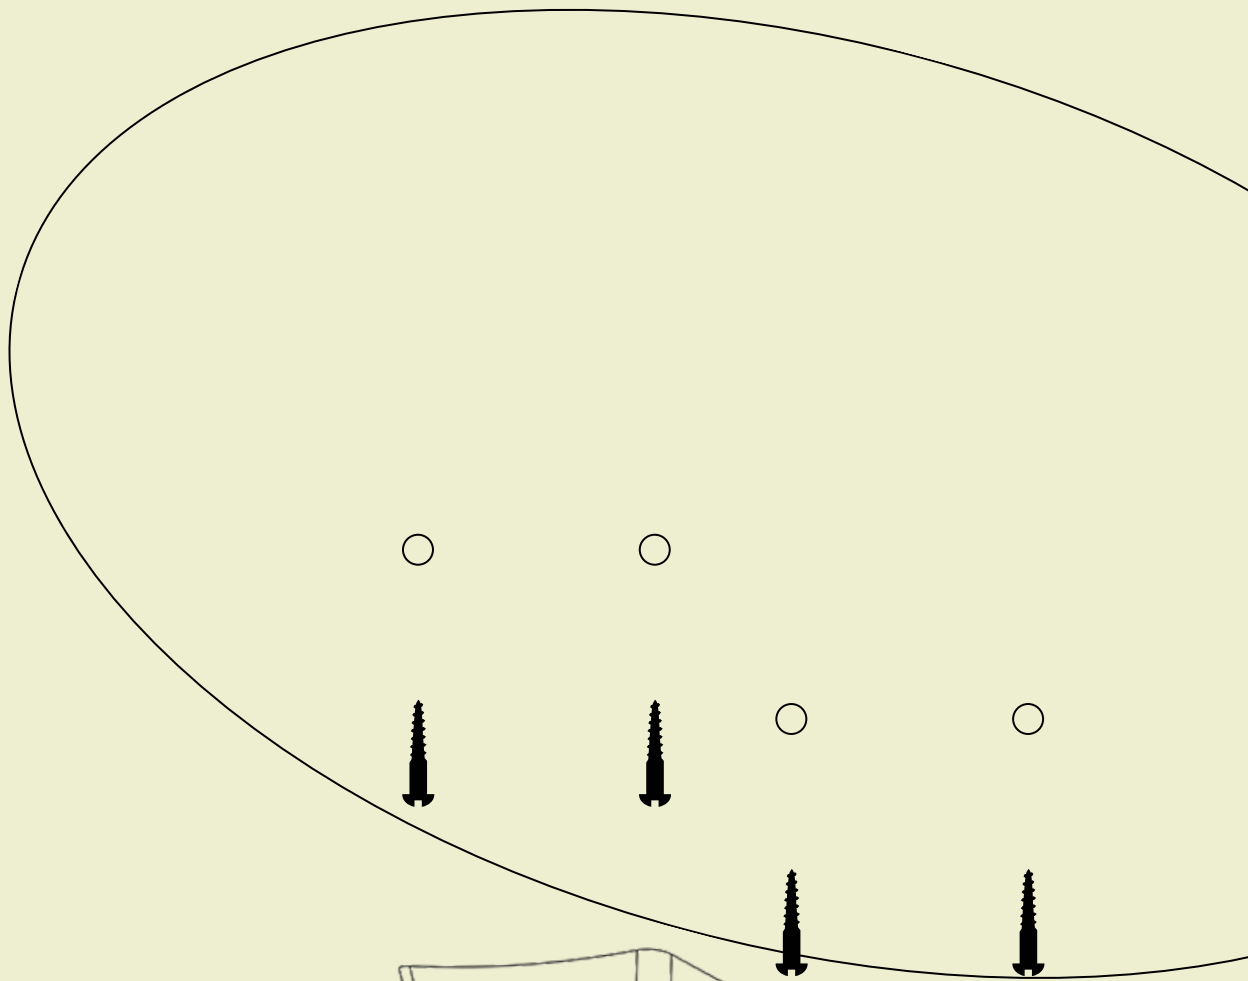

Landing skids

Assembly

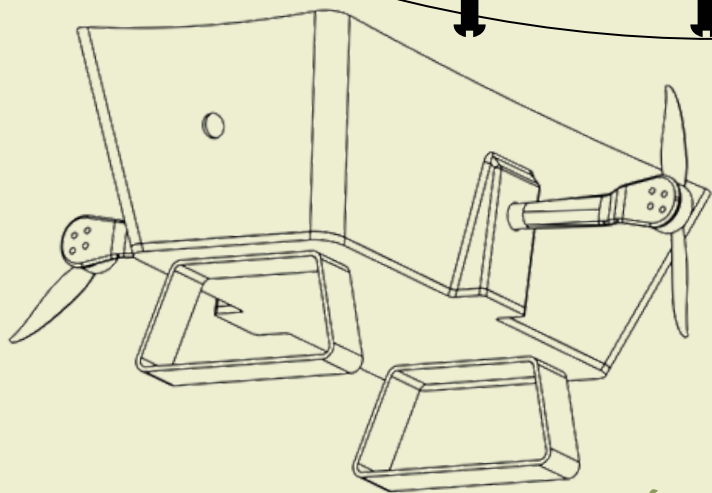

**1. Blow up the baloon
with the helium.**

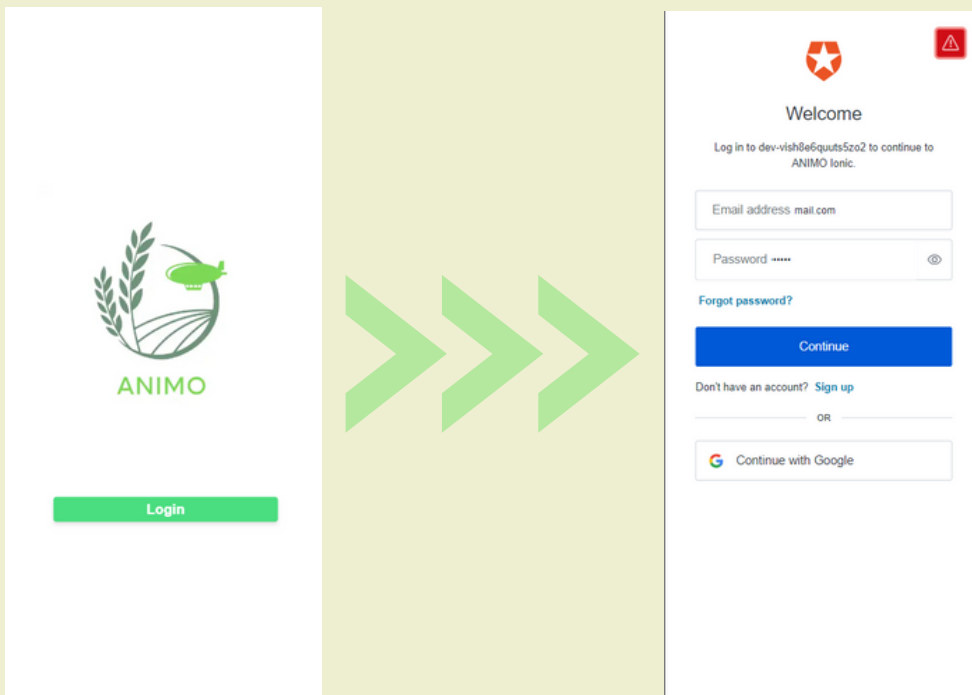

Assembly

**2. Screw down the
screws.**

Blimp operating guidelines

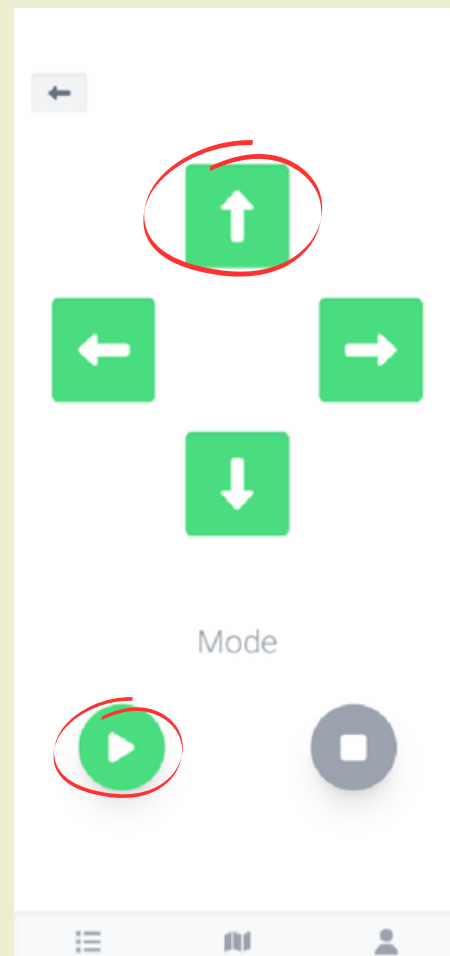

1. The first step to launching our airship is to find a place where it will not meet any obstacles on its way.

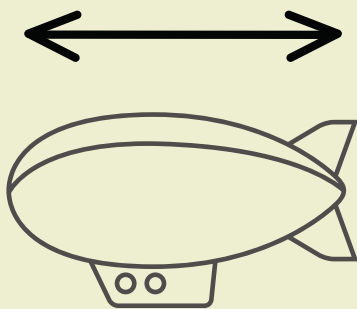

Blimp operating guidelines

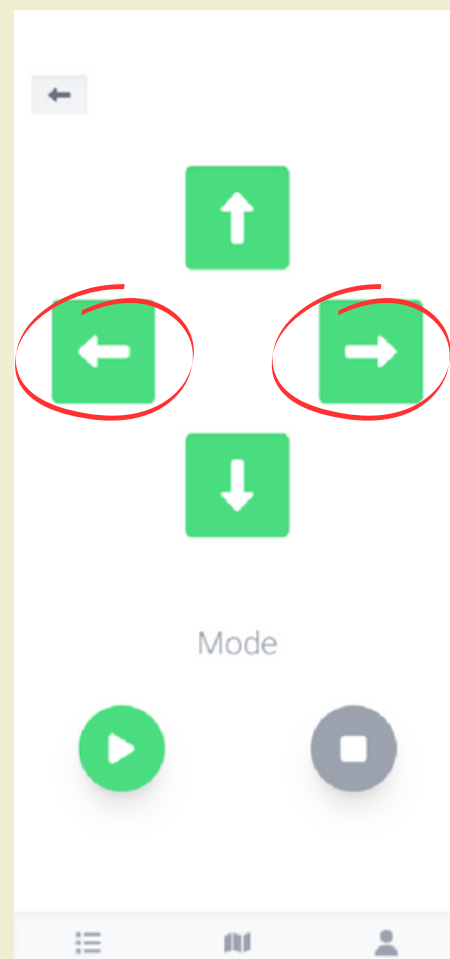

2. When the landing space is found and there are no obstacles you can start the blimp beginning with turning on the engines by pushing PLAY button, then you are choosing UP direction with UP button.

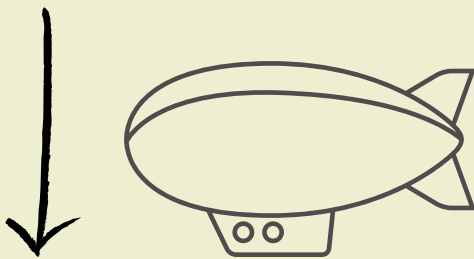

Blimp operating guidelines

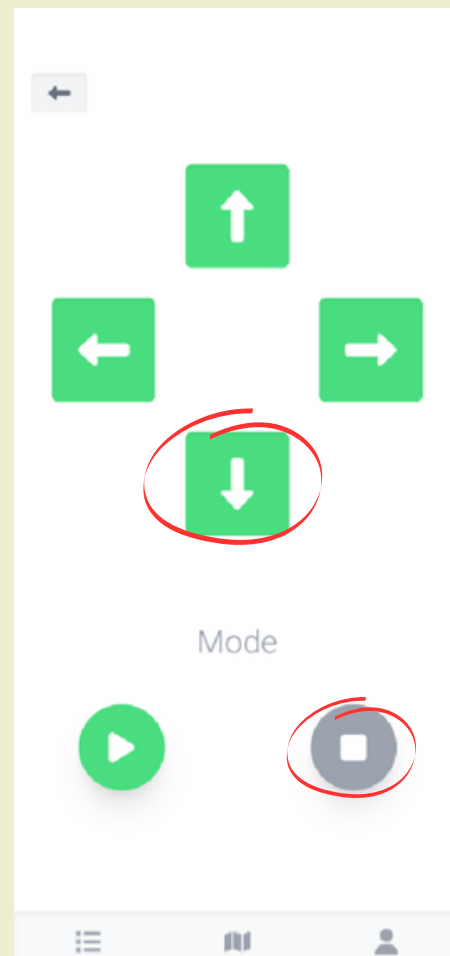

3. When the blimp is in air and you want to turn it left or right, you need to click LEFT or RIGHT button. REMEMBER NOT TO TURN OFF THE ENGINES DURING FLIGHT!

Blimp operating guidelines

4. When the landing space is found and there are no obstacles you can land the blim pushing DOWN button and when it touch the ground turn off the engines pushing STOP button.

FAQ

What is the range of the ANIMO blimp?

The range of the ANIMO blimp depends on various factors such as weather conditions and obstructions. Generally, it can cover a significant area of a cattle field. For more precise details, we recommend consulting the product specifications or contacting our support team.

Does the ANIMO blimp require an internet connection?

Yes, the ANIMO blimp requires an internet connection to transmit data to the app in real-time. Please ensure that you have a stable internet connection, either through Wi-Fi or cellular data, for seamless monitoring.

How secure is the data collected by the ANIMO blimp?

We take data security seriously. The data collected by the ANIMO blimp is encrypted and stored securely. We adhere to strict privacy policies to ensure the confidentiality and integrity of your data.

Can I access the ANIMO app from multiple devices?

Yes, you can access the ANIMO app from multiple devices. Simply install the app on your smartphones or tablets, and log in using your account credentials to view and monitor your livestock data.

Warranty

We are pleased to offer you a comprehensive warranty coverage of two years for all our technical components. This warranty ensures that you can enjoy peace of mind and have confidence in the quality and reliability of our products. To avail yourself of this warranty, we kindly request you to retain your receipt as proof of purchase.

If you ever encounter any issues or need assistance with a warranty claim, we have made it easy for you to reach out to us. You can visit our website at <https://www.animo.com>, where you will find a dedicated section for warranty claims. Alternatively, you can contact us via email at animo@team5.com.

It is important to note that certain conditions apply to the warranty coverage. We kindly ask you to refrain from any misuse or improper handling of the product. Any forceful actions or modifications made to the product will void the warranty claim. We believe that responsible and proper usage will ensure optimal performance and longevity of our products.

We value your satisfaction and strive to provide you with the best experience possible. Rest assured that we stand behind our products and are committed to resolving any issues that may arise during the warranty period. Your trust in our brand and your continued support are greatly appreciated.
